

AI use cases mapping by data maturity level

**A practical framework to guide
you through your next AI project**

About the speaker

AI use cases mapping by data maturity level

Frédéric Etheve

Seasoned tech executive with a remarkable ability to blend strategic vision with hands-on execution. With over 20 years of experience, he's not just led teams—he's inspired them, driving innovation and growth across multiple industries.

At Google, he played a pivotal role in expanding internet access across Africa, leading strategy and business development for major projects. His leadership at OVHcloud was equally impressive, where he guided the company through a successful IPO and expanded its global operations and IT strategy across all Europe.

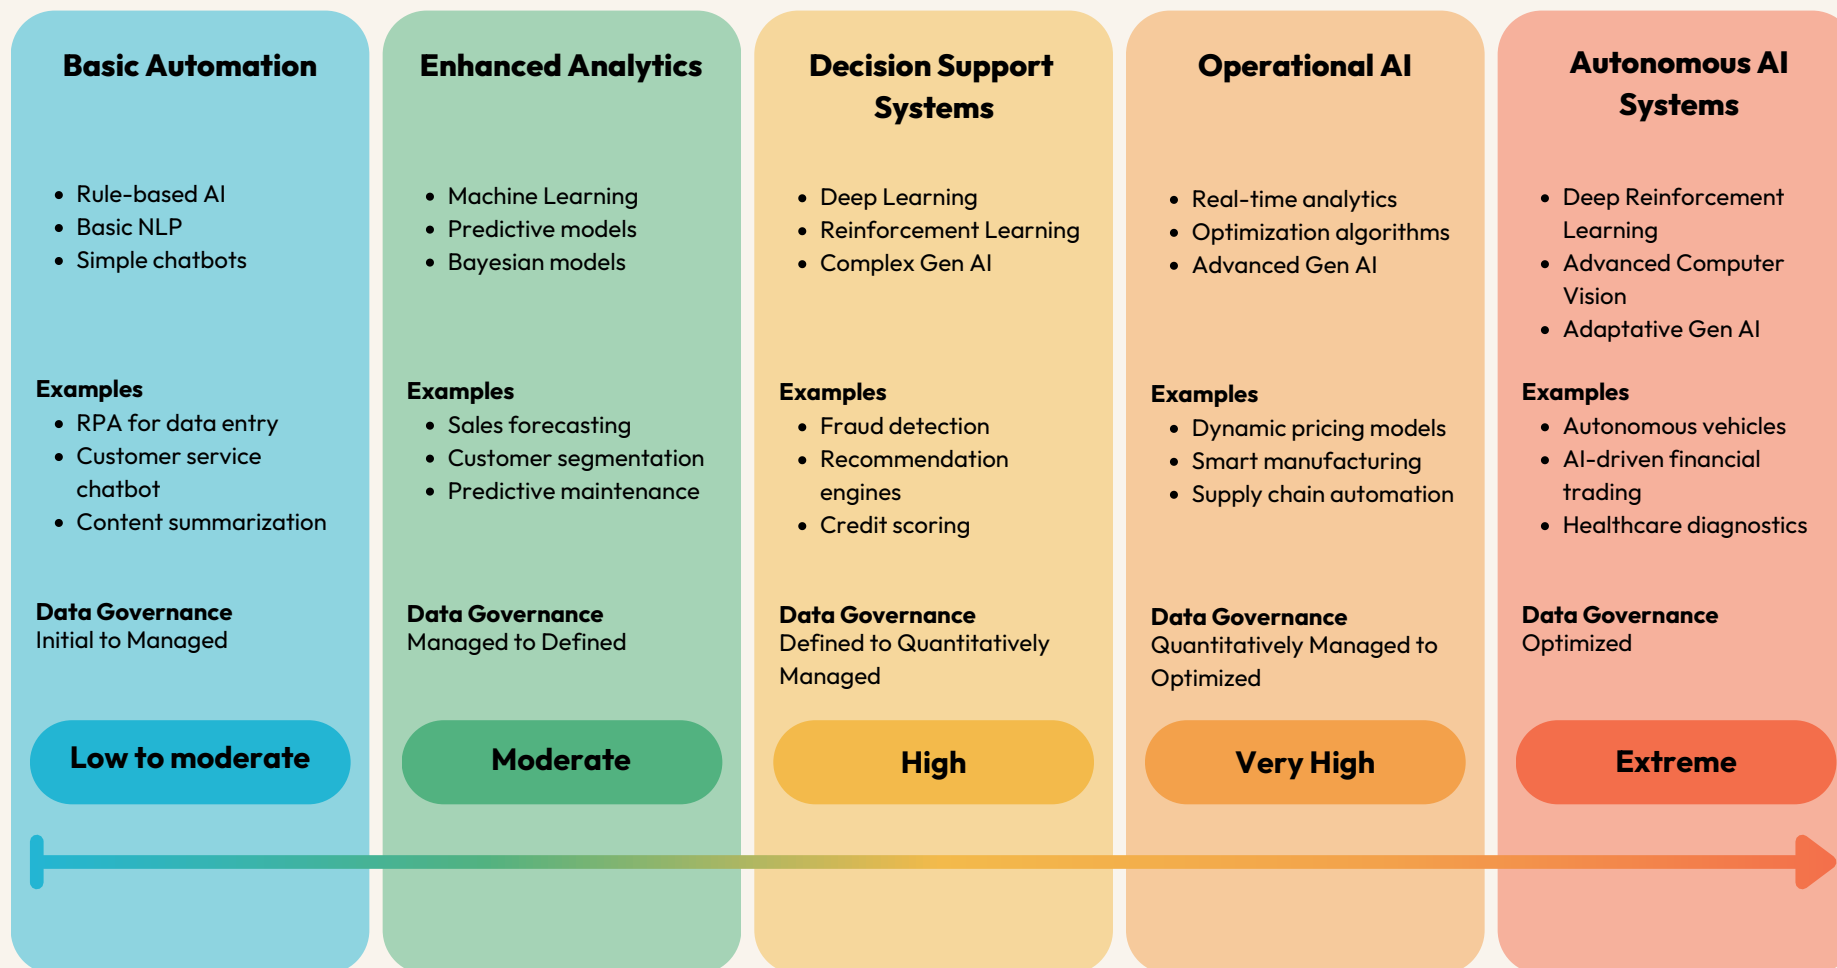

His quick resume

Sensitivity of AI use-cases

- Better position your AI projects
- Quickly understand the link between data governance and AI
- Develop new ideas

This first tool, presented in the form of a 5-column table, enables you to visualise the impact of different AI projects on your data governance. The further to the right and the redder you go, the greater the need to optimise your data governance.

Matrix of sensitivity overview

- View categories of AI projects by Data Governance maturity level.
- Arbitrate between different AI projects more easily

	Initial	Managed	Defined	Quantitatively Managed	Optimized
Basic automation	Green	Green	White	White	White
Enhanced Analytics	White	Blue	Blue	White	White
Decision Support Systems	White	White	Yellow	Yellow	White
Operational AI	White	White	White	Orange	Orange
Autonomous AI systems	White	White	White	White	Red

About N2

AI use cases mapping
by data maturity level

N2 Help & Solutions is an innovation focused collective of Enterprise Service Management (ESM) and ServiceNow freelance consultants.

Since 2020, N2 strives to federate the most talented ESM and ServiceNow consultants across the world, making it easier and safer for organisations to meet top talent. N2 is more than a recruitment service, however. It is focused on prioritizing customer satisfaction and support throughout the lifetime of its members' engagements.

With its extensive network of 50+ global experts, N2 was able to work with many major account customers.
